

This maternity unit is participating in:

Snapshot Obstetric National Anaesthetic Research Project (SONAR 1)

SONAR 1 is a clinical study investigating
patient experiences and comfort under during **caesarean
section deliveries** that are done with the patient awake.

***Information will be collected about your
medical and surgical care if you
require the above surgery.***

If you have a caesarean section, you will be invited to participate.
This will involve completing a questionnaire about your
experiences 24 hours after the caesarean delivery, and then
another questionnaire at approx. 6 weeks after the delivery.

**If you would like further information about what
this means, please ask a member of staff.**
